

Learn It's Summer Extended program promises to be an exciting opportunity for your child! It will include STEAM based themes with reading and math instructional support, fun activities, virtual field trips and educational games that will further assist students' skill advancements in the Title 1 program. We are confident that attending the Summer Extended Year program will provide another opportunity for students to improve academic proficiency, help prevent summer learning loss, and contribute to his/her overall success in school.

Summer Extended Year Program

Let Learn It help you customize your upcoming virtual and/or in person summer program! Contact your local Learn It team member listed below to learn more about our programs and discuss how we can partner together to create an amazing summer experience for your students.
